

JADE B COLOURFLOW

The Jade B is a surface mounted LED lighting fixture with a threaded end for mounting in example metal ceilings or cable trays. The light is available in RGBW & RGBA variants, pastel shades, deep saturated colours, high quality white light that can be programmed with the Jade B Colour Flow. The colour mixing is uniform and shadow free due to a special optical filter. Typical Applications include all applications where a high-quality surface mount fixture is needed, where one wants to combine functional lighting with coloured lighting.
