

FOCUS MICRO G2 BASE

The most compact, but fully equipped, zoom DMX fixture available. Standing upright, the Focus Micro G2 Base is only 82 mm high. With a diameter of 26 mm, the Focus Micro G2 Base is compact. The design makes the Focus Micro virtually invisible and unobtrusive, without compromising on functionality. Besides the zoom range of no less than 6° to 90°, some key features are high quality LED light sources with a Colour Rendering Index of ~95 and a choice of four different colour temperatures and control methods.
