

REVO XL TUNABLE WHITE DMX

The Revo XL Tunable White DMX is a unique, configurable LED lighting fixture that offers designers new possibilities for creating stunning visuals. This two-section fixture can be controlled separately, allowing for different light colours and beam angles on each side. The Tunable White LED modules allow for seamless adjustment of the white point from warm to cool, giving designers even more control over their lighting schemes. The durable CNC-cut aluminium housing is IP67 rated for outdoor use, and features a ventilation gland with Gore-Tex membrane to prevent condensation.

> Specifications

Type	Revo XL Tunable White DMX, IP67 configurable outdoor surface mounted fixture
Colour	Black, Aluminium
Material	CNC machined aluminium
Weight	3600 gram
Swivel	360° horizontal 270° vertical
Ambient temperature	-10°C to 40°C

Optics	8° 12° 30° 60° 80° 12x46°
Light source	High Power LED
CRI	>80
LED colours	1800K-3000K 1800K-4000K 2700K-5000K

Power consumption	Max. 40 Watt
Power supply	100~240 VAC
Driver	Driver included Driver internal
Dimming	Casambi DMX512 Wireless DMX
Connection	Cable with open end
Cable length	200 cm

IP rating	IP 67
Protection class	3
Certifications	CE

Lifetime	50.000 hours
LB Value	L90B10 at 50.000h
Warranty	3 years
<hr/>	
Technologies	Dynamic Power Control Dynamic Temperature Control
Accessories	Snoot, ground pin, extension pipe
Remarks	Ventilation gland with Gore-Tex membrane to avoid condensation. Fitted with a 5 core DMX combi cable
