

REVO MICRO BASIC

The Revo Micro is a sleek and compact 5 Watt LED fixture that is perfect for accent lighting and other applications where a small fixture with a high light output is required. The CNC cut, massive aluminium housing ensures that this fixture will last for years, while the ventilation gland with Gore-Tex membrane minimizes the risk of condensation. The interchangeable optics make it easy to customize the light setting to your needs, and the 200 different configurations make it easy to find the perfect fit for your needs.
